Getting the Software and Installing ArcGIS Desktop 10.X

1. Connecting to the Software Drive
   1.1. In order to get the installation software for ArcGIS Desktop, you need to be connected to the Clemson campus network.
   1.2. Once you are connected to Eduroam, open your file explorer and click on computer in the menu on the left.
   1.3. After clicking on computer, click Map Network Drive.
   1.4. In the blank space that says folder to the left of it, type `\software.clemson.edu\software`. The letter chosen in the Drive dropdown menu is arbitrary.
   1.5. Click Finish.
1.6. You will be prompted to enter a password. In the **Enter network credential** dialogue box, enter your Clemson userID and password. Click **OK**.

1.7. If necessary, click **Finish** again.

1.8. After connecting to the network drive, it should display in your computer window next to your (C:) Drive. It will be labeled **software(\software.clemson.edu)**. Double-click to open the drive.
2. Getting the Software installer

2.1. Open the Software folder.

2.2. In the Software folder, scroll until you see a folder labeled ESRI. Open the folder.

2.3. Open the Windows folder.

2.4. Open ArcGIS_for_Desktop.

2.5. Select the version of the software as per your need, following are the versions available:
2.7. Let’s suppose we are installing ArcGIS_Desktop_10_X.
2.8. Find the folder labeled ArcGIS_Desktop_10_X and open it.
2.9. Copy the folder on your local drive.

2.10. Double click on ArcGIS_Desktop_107_167519 to run the installer.

2.11. Click Run.
2.12. The destination should already be set for you. If you wish to change the destination folder click Browse. Otherwise click Next.
2.13. After the files have been extracted, you will see the Windows Installer and let it run.

2.14. After the installation files have installed successfully, click Close.
2.15. The ArcGIS Desktop setup program should open automatically. Then click Next.
3. Installing ArcGIS 10.X
   3.1. Now, click on I accept the license agreement, and click next again.
   3.2. When asked to choose installation type, choose Complete and click Next.
   3.3. Click Next.
3.4. Click **Next**.
3.5. Click **Install**.
3.6. Let the installer run and then you will see this window, click Finish
4. **Authorizing your software** (for Concurrent Use license)

   If the authorization window doesn’t come automatically, then go to Start -> All Programs -> ArcGIS -> ArcGIS Administrator -> Click on Desktop (on the left panel)
   OR
   If it comes automatically then you will see the window in the screenshot below.

4.1. Select **Advanced (ArcInfo) Concurrent Use**. Under License Manager, type `license6.clemson.edu`. Click **Apply** and then click **OK**.
